DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis for the recited "space" in claim 1. It is unclear in claim 1 if the recited "ceiling" or "floor" are part of the claimed cookware or the lower compartment of the cookware. In claims 3 and 4, there is no structure recited to define the claimed functions. The claims appear to be operational steps only.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Lin.

There is disclosed in Lin an enclosed cooker, comprising: a cookware 10 having a lower compartment (bottom), wherein the lower compartment has a ceiling (inner shell) and floor (outer shell) which defines a space, and further wherein the space contains a liquid 14 and a depressurized portion (vacuum area).
